Phone: +91 6309556714 | **Email:** reshmathouti5@gmail.com | **LinkedIn:** LinkedIn | **GitHub:** GitHub

SUMMARY

Motivated Computer Science undergraduate with hands-on experience in full-stack web development, REST APIs, and scalable application design. Proficient in Python, JavaScript, Java, PHP, and MySQL with exposure to MVC and component-based architectures. Built **LeetSync**, a browser extension with active GitHub syncs. Solved **250+ LeetCode problems**, demonstrating strong DSA and problem-solving skills. Seeking a Full Stack Developer role to contribute to product-based teams using modern web technologies.

EDUCATION

SR University <i>Bachelor of Technology in Computer Science and Engineering</i> CGPA: 9.6/10	Warangal, Telangana <i>Aug 2023 – Present</i>
---	--

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, C, C++
Frontend: HTML5, CSS3, JavaScript, Next.js, React.js(Portfolio) , DOM Manipulation, Component-Based UI Design
Backend: Node.js (Basics), MVC Architecture, REST API Design, PHP, Java Servlets, JDBC
Databases: MySQL, SQL (Joins, Indexing, Stored Procedures), Token-Based Authentication
APIs & Auth: GitHub REST API, API Authentication, JSON Data Handling
Tools: Git, GitHub, VS Code, Chrome Extensions API, Apache Tomcat
Concepts: Data Structures & Algorithms, OOP, Agile Methodology, Microservices (Fundamentals)

PROJECTS

AI Twin | *HTML, CSS, JavaScript, Node.js, Gemini API, GitHub API, Vercel*

- Built an AI-powered digital twin platform that serves as an interactive representation of my professional portfolio, projects, and technical expertise.
- Integrated **Google Gemini API** and **GitHub REST API** to deliver contextual AI interactions, live repository insights, and automated portfolio data synchronization.
- Engineered a recruiter-focused dashboard with real-time analytics, dynamic visualizations, and serverless backend architecture, ensuring fast performance and seamless deployment.

LeetSync | *JavaScript, Chrome Extensions API, GitHub REST API, DOM API*

- Developed a production-grade Chrome/Edge browser extension that automates synchronization of accepted LeetCode and GeeksforGeeks solutions to GitHub using MutationObserver-based DOM detection and Background Service Workers.
- Integrated the **GitHub REST API** with token-based authentication for secure, automated repository management and structured solution organization.
- Implemented an analytics dashboard, streak tracking, accepted-only upload logic, and account-specific sync functionality, demonstrating end-to-end product development skills.

Job Tracker Pro | *Java, JDBC, Servlets, MySQL, Apache Tomcat, MVC*

- Developed a full-stack job application tracking system with **role-based authentication**, session management, and secure CRUD operations.
- Designed and implemented **MVC architecture** with clean separation of concerns; enforced multi-user data isolation using JDBC connection pooling and MySQL.
- Built an admin dashboard with real-time tracking, reporting features, and **REST API**-style endpoints for modular data access.

Online Saree Shopping Website | *HTML, CSS, JavaScript, PHP, MySQL, REST APIs*

- Developed a responsive, component-structured e-commerce platform with dynamic product filters, cart, wishlist, and a complete checkout pipeline using **SQL** and **REST API** design patterns.
- Introduced a “Customization” feature using modular JavaScript components, enabling users to personalize products by color, fabric, and design – improving engagement and conversion.

Study Task Manager | *Java, Swing, Multithreading, File I/O, OOP*

- Built a desktop task management app with Java Swing, applying **OOP principles**, modular architecture, multithreaded reminders, and persistent file-based storage.

Smart Dustbin – Waste Classification System | *Electronics, Automation, Logic Design*

- Designed an automated waste segregation system applying electronics and logical automation to improve waste management efficiency.

ACHIEVEMENTS & CERTIFICATIONS

- Solved **250+ LeetCode problems** with consistent performance in Data Structures, Algorithms, and problem solving.
- Maintained a **9.6 CGPA** in B.Tech Computer Science and Engineering at SR University.
- Completed **Fundamentals of Deep Learning** certification by **NVIDIA** – demonstrating initiative in emerging technologies.
